**AMENDMENTS TO THE CLAIMS**

What is claimed is:

- 5           1.   (Currently Amended) A window assembly for garage doors,  
comprising:

          A)   a transparent panel having an external surface and an internal  
              surface, said external surface including a coplanarly extending  
10           peripheral flange member making said external surface larger than  
              said internal surface with respective external and internal peripheral  
              edges, and said peripheral flange member further including a  
              peripheral underside surface that comes in abutting contact against the  
              peripheral external surface adjacent to and outside an opening in a  
15           garage door panel with cooperative dimensions to permit said internal  
              surface to pass through and beyond said opening; and

          B)   means for mounting said transparent panel on said garage  
20           panel.

2.   (Canceled).

Serial No. 10/669,900

3. (Canceled).

4. (Previously Presented) The window assembly set forth in claim 1 wherein said means for mounting said transparent panel on said garage panel

5 includes:

C) an external frame assembly mounted on said garage panel around said external peripheral edge.

10 5. (New) The window assembly set forth in claim 1 wherein said transparent panel consists of one pane.
